

# New Romance

English Version

## Supplies

(for 17 units)

8 round beads 8mm color A

9 round beads 8mm color B

7g seed beads size 11°

6g seed beads size 15°

7g cylinder beads size 11°

18 jump rings 16 Gauge, 5mm

1 clasp

thread: Fireline 6lb test

beading needle size 12°

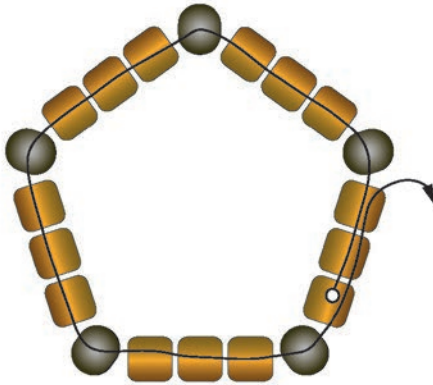

## Introduction

The necklace is made from 2 components, that only differ in the position of the loops, added in the last step. The units are mounted alternating. I also chose two different pearl colors in the center. Of course you can make many variations up to making them earrings, by just adding one loop in the last row.

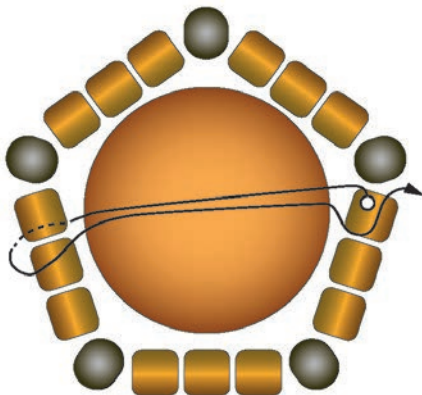

**Step 1**

String 3 cylinder beads and one size 11°. Repeat another 4 times and make a circle by weaving again through the first bead. Then weave another time through all the beads to fix the thread.

**Step 2**

We mount the round bead in the center of the ring. Exit from any bead of the ring.

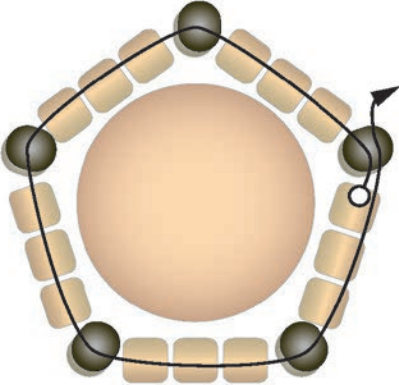

String one round bead (color A) and put it in the center of the ring. Exit with the thread from underneath the ring, then enter the round bead again from above the ring. Pull the thread and hide it in between the beads of the ring. Enter the beads of the ring again where you started.

4

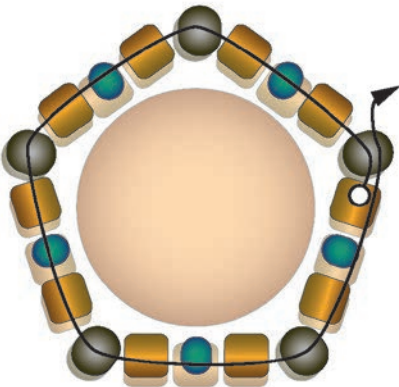

### Step 3

Exit in front of a size 11°. String one size 11°, skip the size 11 of the previous row and weave through the following 3 cylinder beads. Repeat another 4 times. In the end, exit from the first size 11° added in this step.

### Step 4

String 1 cylinder, 1 size 15°, 1 cylinder and weave through the next size 11° of the previous row. Repeat another 4 times. At the end weave forward and exit from a size 11° of step 1. Flip the beadwork over. You will continue working on the reverse.

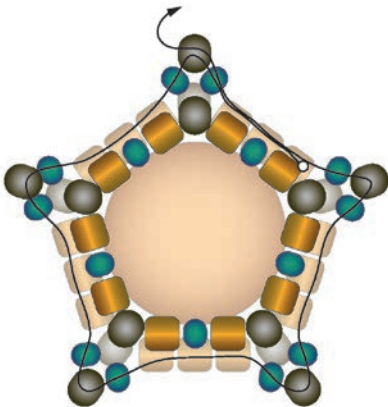

**Step 5**

Repeat step 4 on the other side. In the end weave forward and exit from the last of 3 cylinder beads of step 1.

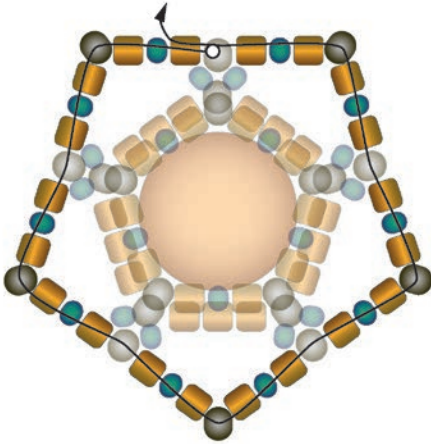

**Step 6**

String 1 size 15°, one size 11°, 1 size 15° and weave through the following 3 cylinder beads. Repeat another 4 times. At the end exit from the first size 11° added in this step.

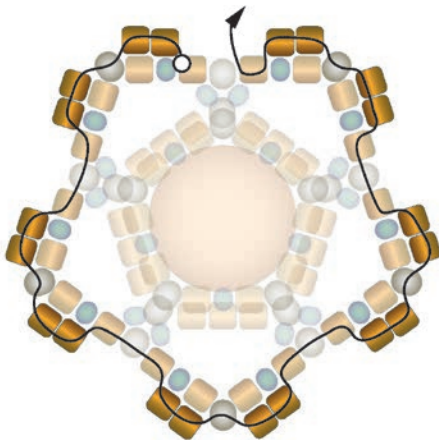

**Step 7**

String 1 cylinder, 1 size 15°, 1 cylinder, 1 size 11°, 1 cylinder, 1 size 15°, 1 cylinder and weave through the following size 11° of the previous step. Repeat another 4 times. At the end exit from the first cylinder bead added in this step.

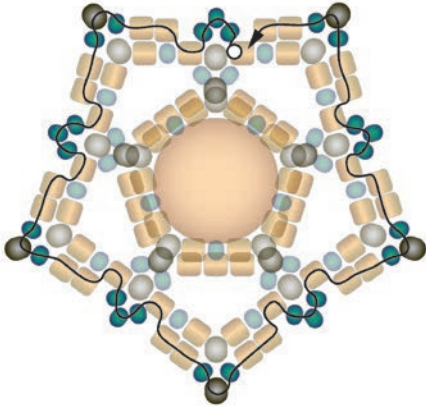

**Step 8**

String 2 cylinder beads, skip 1 size 15° and 1 cylinder of the previous step and weave through the following size 11°. String 2 cylinder beads, skip one cylinder, 1 size 15° and weave through the following cylinder, 11° and cylinder. Repeat another 4 times and exit from a cylinder bead in front of a size 11° of step 6 (see drawing).

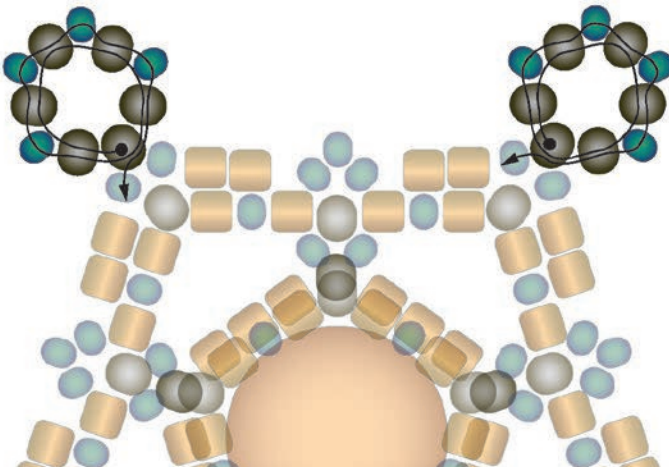

**Step 9**

String 3 size 15° and weave through the following 3 cylinder beads. String one size 15°, 1 size 11°, 1 size 15° and weave through the following 3 cylinder beads. Repeat another 4 times. At the end exit from a size 11° added in this step.

**Step 10**

Now make a loop on two adjacent tips as follows. Exiting from a size 11°, string 5 more size 11°. Weave again through the bead where you exited from. Then weave another time through the beads of the loop and then a third time. This time you will add each one size 15° in the 2nd, 3rd, 4th and 5th gap between the size 11°s.

### Finish

Make another component with a round bead color B in the center. This time you will add the loops on the first and the third tip (not two adjacent tips), as shown in the right picture.

Make the components and attach them alternating, using the jump rings, until the necklace reaches the desired length.

### Some words in the end:

This is a free pattern and I hope you enjoy it.  
 You may sell pieces you made after this pattern,  
 as long as it is no commercial mass production.  
 You may teach it, but please use the original instructions.  
 Happy Beading!
